THREATENS LIVES OF HIV+ NEW YORKERS

Speaker Christine Quinn and the New York City Council are on the verge of passing a hush-hush budget **TODAY** that will kill New Yorkers. Funding for vital social services are being unjustly cut, with disadvantaged New Yorkers once again paying the price.

A **GOOD** budget means city-wide support of basic AIDS services and benefits to reach all low-income New Yorkers who are at risk or HIV-positive and rely on public benefits to survive.

Call your City Council member, Mayor Bloomberg and Speaker Quinn. Tell them that:

“The proposed budget is a BAD budget that will kill people with AIDS and poor persons at risk for HIV and other diseases. Vote NO on the budget.”

If the budget doesn't pass, it will give more time to lawmakers trying to keep essential services in place.
